Program Overview:

Thrive is an in-home preventive program tailored for youth (ages 0 to 18) involved in the juvenile justice system. Designed to intervene immediately following their initial encounters with the system, Thrive aims to divert youth from further juvenile justice involvement through family-based services that integrate evidence-based interventions, such as Collaborative Problem Solving (CPS) and Motivational Interviewing (MI). Thrive addresses the underlying factors contributing to delinquent behaviors and provides motivation for change. This program provides trauma-informed care that builds resiliency in youth who often face increased risks due to Adverse Childhood Experiences (ACEs). By actively engaging the entire family unit, Thrive adopts a holistic approach to treatment, facilitating early intervention that promotes positive, long-term outcomes while reducing the likelihood of an out-of-home placement.

Essential Duties and Responsibilities:

The Thrive Family Specialist:

- Carries a caseload of 8 to 12 families
