

Automate nonprofit finances. Free up time for your mission.

Nonprofit teams juggle grants, donations, vendors, and audits—often with limited staff and tight budgets. BILL helps you move beyond paper-based processes and spreadsheets to a modern, automated financial operations platform so your staff can spend more time serving your community and less time on manual admin.

With one secure, cloud-based platform for **accounts payable, accounts receivable, and spend & expense**, BILL gives you the visibility, control, and audit-ready records you need to steward every dollar well.

Why nonprofits choose BILL

Save time on back-office work

Replace manual data entry, check runs, and email approvals with automated workflows and electronic payments.

Improve transparency and trust

Give boards, donors, and grantors clear, timely financial information with documentation and approval trails at your fingertips.

Support staff and volunteers

Make it easy for program leaders and approvers to review and approve bills or expenses from anywhere, on any device.

What you can do with BILL

BILL Accounts Payable & Receivable

- Capture and code invoices with AI-driven invoice capture instead of keying data by hand.
- Route bills for digital review and approval with clear separation of duties.
- Pay vendors and reimburse staff via ACH, virtual card, international wires, or mailed checks without leaving the platform.
- Sync bills, payments, and customer invoices to your accounting system for accurate, up-to-date books.

BILL Spend & Expense

- Issue physical and virtual cards with built-in budgets and controls, so staff can buy what they need without overspending.
- Track expenses by fund, grant, program, or department in real time.
- Automate expense reports and categorizations so month-end closes faster and audits are less stressful.

Automation, visibility, and security

- See cash flow, upcoming bills, and spend in one place so you can make confident decisions.
- Reduce errors and fraud risk with role-based permissions, approval policies, and complete, timestamped audit trails.
- Store invoices, receipts, and key documents securely in the cloud instead of in file cabinets or inboxes.

Works with the tools you already use

BILL integrates with leading accounting systems and supports file-based imports/exports, helping you keep your general ledger, bank accounts, grants, and donor records in sync without duplicate data entry.
