Program Overview:

Youth Villages' Treatment Foster Care program provides evidence-based, intensive in-home treatment for youth in foster care while supporting foster parents and advocating for the best interests of each youth. The program serves children and adolescents (ages 0 to 18) who have experienced trauma, abuse, or neglect, and may have behavioral and mental health needs.

Our parent-centered treatment model promotes positive change across home, school, community, and peer environments – all while working diligently to achieve family reunification whenever possible or finding permanency through adoption. Foster families and youth receive comprehensive support through weekly in-person sessions and access to 24/7 on-call support from highly trained, trauma-informed Foster Care Specialists.
